

Save the Rain

Outreach & Education Programs

Be a part of Onondaga County's Save the Rain program! There are several ways to get engaged. Check out the brief descriptions on the back, and feel free to contact each project leader for additional information.

Follow Us, Like Us, Tweet Us

Stay up to date on Save the Rain projects, programs and initiatives! We have a regular monthly eNews, a Facebook page, a LinkedIn group and a Twitter presence. Contact Save the Rain Outreach and Education Coordinator Khris Dodson at 443-8818 or kdodson@syracusecoe.org to get signed up for our social media.

Residential Rain Barrel Program

Onondaga County is offering a free rain barrel to City of Syracuse residents. In order to receive your free rain barrel, you must first attend a brief workshop that tells you why the County is using green infrastructure, what Save the Rain is, and how to install and maintain the rain barrel. We plan to offer more than a dozen workshops in the spring and summer of 2012. For more information, contact Amy Samuels at 443-1757 or asamuels@oei2.org.

K-12 Educational Program

Save the Rain has curriculum for short courses, presentations and activities for all ages. From bus tours and presentations for older students to watershed and green infrastructure education, models, activities and exercises for younger students, we'd be happy to tailor our curriculum to fit your needs. Contact Save the Rain Outreach and Education Coordinator Khris Dodson at 443-8818 or kdodson@syracusecoe.org for more information.

Street Tree Program

Cornell Cooperative Extension, in partnership with the City/County arborist and Onondaga County's Save the Rain program, are offering free street trees to those who would like them. This program is targeted to specific parts of the city of Syracuse. By 2018, there will be an additional 8,500 trees planted as part of this program. To learn more about this program, whether you are eligible for and if you have space for a tree, and how to receive one, please contact Fran Lawlor at 424-9485 ext 230 or FML7@cornell.edu.

Civic Group and Community Meetings

Each year Save the Rain shares information with community members at various meetings including civic groups, private clubs, churches, schools neighborhood associations and more. If you would like a Save the Rain representative to present information at your meeting, then contact Khris Dodson at 443-8818 or kdodson@syracusecoe.org to schedule a visit.
