

Save the Rain – CSO 029 Project

Save the Rain
www.savetherain.us

Onondaga County is performing work on Walton Street to improve quality of life and enhance water quality in Onondaga Creek and Onondaga Lake, through installation of infrastructure that will decrease combined sewer overflow events. To protect public safety, the work will require road closures – see the backside for a map.

The project is a part of the Onondaga County **Save theRain** program, a county-wide initiative to improve water quality in Onondaga Lake and its tributaries. To learn more, scan the QR code or visit:

Questions/Comments can be directed to Jed Walsh:

Email: JedWalsh@ongov.net

Phone: 315-435-5402 (Ask for Jed)

Emergency: call 911 first, then 315-435-5057

Work will occur along Walton Street, between Franklin Street and Fayette Street (area in red above). A portion of Walton Street and a section of the Creekwalk will be closed, with detours provided. Construction will begin in September 2022, and will be completed in 2-3 months. Please visit the project website to learn more.
